LAKE COMO SCHOOL OF ADVANCED STUDIES

SUMMER SCHOOL ON REAL ESTATE INNOVATION

I EDITION: Digital Solutions for Sustainable and Inclusive Housing

WHERE AND WHEN?

14-18 JULY 2025

On site @ villa del Grumello, Como
Como Lake, Italy

WHY?

To learn how to master the ongoing development in the real estate sector brought about by PropTech (Property Technology).

WHO CAN APPLY?

Undergraduate and graduate students interested in how digital technologies are innovating the real estate and construction sectors.

WHAT?

INTERNATIONAL AND INTERDISCIPLINARY SUMMER SCHOOL ON Real Estate Innovation (REIN)

In a hackathon-like setting, the participants will develop digital business proposals to address the most pressing challenges in the housing market, utilizing design thinking and a creative problem-solving approach.

Given the recent socio-economic and environmental challenges, the School will explore how digital technologies enable novel and original ways to create more sustainable and inclusive housing and living practices.

Innovation in real estate is driving greater efficiency, transparency, and sustainability in the sectors' operations, while also creating new opportunities for investments. The disruptive transformation of this sector encompasses the application of the available technologies in novel and original ways to produce new insights and encourage more effective and efficient practices.
